

RECOVERY SERIES BACKUP

ALL-IN-ONE BACKUP APPLIANCES FOR SIMPLER, SMARTER IT | GEN 8

Recover with Confidence

Unitrends all-in-one appliances protect from all sides—from ransomware to disaster to deleted files.

Recovery Series appliances combine backup software, storage, compute, & cloud into one secure box.

- **No FINGER POINTING**
All-in-one approach removes backup complexity, with comprehensive 24/7/365 support.
- **LESS MANAGEMENT**
Pre-integrated backup appliances and intuitive management console cut admin time by 50%.
- **MORE SCALABILITY**
Backup appliances grow with your business. Easily scale up, out, and to the cloud.
- **MORE UPTIME**
Reduce downtime with instant recovery, ransomware detection, and automated disaster recovery testing.
- **MORE CONFIDENCE**
SLA policy automation proves recoverability and compliance — define, analyze, and report.
- **MORE FREE TIME**
Predictive analytics proactively identify recovery issues. Spend your free time on other tasks.

Recovery Series

Unitrends Recovery Series purpose-built backup appliances make it easy to meet your SLAs. No more broken promises, just simpler, smarter IT.

15 MODELS AVAILABLE, RANGING FROM 2 TB TO 120 TB

SLA Policy Automation —

Define & schedule backups in one easy step based on your RTO and RPO goals.

Automatic ransomware protection —

Built-in AI detects and alerts you to ransomware.

Cloud empowered —

Unitrends Cloud, Unitrends DRaaS, public clouds.

Automated disaster recovery testing —

With recovery analytics and RPO/RTO reports.

Preconfigured, enterprise-class reporting —

Easily satisfy compliance requirements & your boss.

Instant Recovery —

One click transforms Windows servers into VMs; instantly recover without setting up new hardware.

Data Copy Access —

Instant creation of isolated, fully featured test and dev environments.

Unified bare metal backup —

1-pass dissimilar bare metal restore.

WAN-optimized replication —

Combines deduplication, acceleration, compression, and military-grade encryption.

Local archiving —

Disk-to-disk-to-any (D2D2X) to removable media, including tape and SATA disk.

Best-in-class backup for physical & virtual workloads —
VMware, Hyper-V, Windows, Nutanix, and more.

Adaptive Deduplication™ —

Global and inline for maximum storage efficiency.

Near continuous data protection —

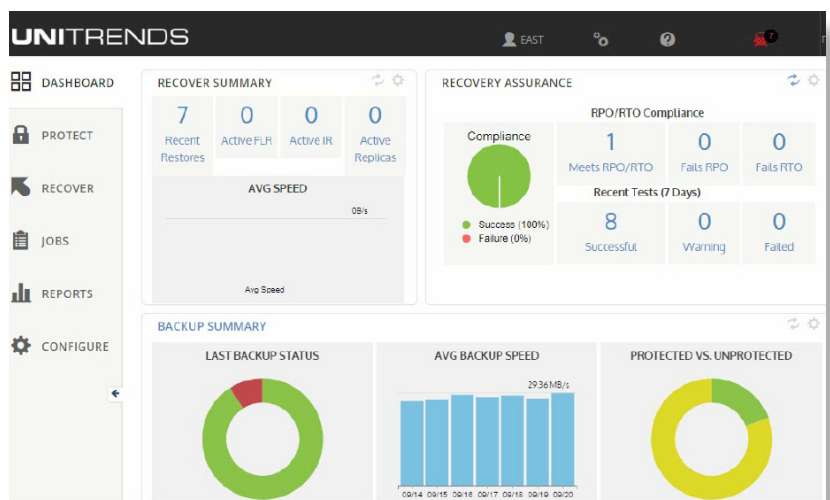

Backup as often as every 60 seconds.

Intuitive, centralized user interface —

Manage all of your backups, reports, & archiving from one console.

24/7/365 Support —

Based in the U.S. with a 98% customer satisfaction rate.

Recovery Series Features

All models are available in Enterprise or Enterprise Plus editions.

Features	Enterprise	Enterprise Plus
Comprehensive Backup for Physical, Virtual (VMware, Hyper-V, XenServer), Nutanix, Cisco UCS – See 250+ Supported Systems	✓	✓
Automatic Ransomware Detection	✓	✓
24x7 Customer Support	✓	✓
Global Adaptive Deduplication	✓	✓
Local Backup Copies (NAS, DAS, and SAN)	✓	✓
Unitrends Cloud & DRaaS Enabled	✓	✓
Integration with AWS & Azure Clouds	✓	✓
Replication Target & Cross Replication	✓	✓
Single Pane of Glass User Interface	✓	✓
Hot/Cold & Dissimilar Bare Metal Recovery	✓	✓
AES-256 Bit Encryption	✓	✓
Instant Recovery (P2V); (V2V); (V2P)	✓	✓
VMware and Windows Replicas	✓	✓
Backup Scheduling & Inclusion/Exclusion Backup	✓	✓
Bandwidth Throttling	✓	✓
